MINUTES
OF
SPECIAL CONVENTION
OF
UNITED MINE WORKERS OF AMERICA

The convention was held in Tomlinson Hall, East Market street.
The first session was called to order at 10 A. M., Thursday, President John Mitchell in the chair, and Secretary-Treasurer Wilson in his place.

President Mitchell: The hour of ten o'clock having arrived, the convention will please be in order. The Secretary will read the call for the convention.

Secretary Wilson read the call, and on motion of C. P. Gildea it was adopted as read.

The report of the Committee on Credentials was read by the chairman, M. McTaggart, as follows:

CREDENTIAL COMMITTEE'S REPORT.

To the Special Convention of the United Mine Workers of America, held in Tomlinson Hall, Indianapolis, Ind., July 17, 1902:

GENTLEMEN OF THE CONVENTION—We, your Committee on Credentials, beg leave to report the following-named delegates entitled to seats in the convention, with the number of votes for the respective locals they represent set opposite their names. Delegates whose names do not appear upon this list, or who desire any corrections made in the number of votes they are credited with, are requested to meet the Committee on Credentials at Room 1119 Stevenson Building, immediately upon the adjournment of the convention.

On motion of Delegate Campbell the report was received and the Committee was continued.

The convention was then adjourned to meet at 2 o'clock, p. m.

SECOND SESSION.

THURSDAY AFTERNOON, July 17, 1902.

The second session was called to order at 2 p. m. by President Mitchell.

The chairman of the Credentials Committee announced that the Committee had no further report to make at that time.

On motion, duly seconded, the convention went into executive session.

On motion of John P. Reese the motion to go into executive session was reconsidered.

After some discussion a motion was carried under which the convention was to remain in open session until the chairman decided it was time to go into executive session.

The chairman appointed the following Committee on Distribution: Herman Perry, District 12; Hiram Lanning, District 6; Stephen Reap, District 1.

President Mitchell then read the following recommendations:

GENTLEMEN: In opening this convention, I deem it my duty to make a few preliminary remarks, and to suggest, in a series of recommendations, the policy which would, in my judgment, best protect the interests of the striking anthracite mine workers and preserve unimpaired the integrity of our entire organization.

As you are aware, the constitution of the United Mine Workers of America requires the President to call a special National Convention upon the application of five Districts, regardless of whether or not the judgment of the President is in accord with the views of the Districts making such application, or with the purpose for which the convention is called.

In determining the grave and important question which now confronts you—namely, the advisability of inaugurating a national suspension of coal mining in defense of our struggling fellow-workers in the anthracite fields of Pennsylvania—it is imperative that you should weigh with the greatest possible care the momentous problem with which you have to deal; neither passion nor prejudice should influence your action in any particular; and I sincerely trust that your decision—whatever it may be—shall carry hope and inspiration to that great army of men, women and children in the anthracite fields who are watching and praying in expectation that this assembly shall devise some measure which shall prove sufficient to enable them to obtain living wages and humane, American conditions of employment. Personally, I wish to impress upon you a realization of the fact that their success will be your success and their defeat will be your defeat; moreover, the destruction of the United Mine Workers' organization in the anthracite coal fields of Pennsylvania would prove the greatest possible shock to the American trade-union movement. The

eyes of the entire nation are centered upon that contest; the hearts of all liberty-loving, patriotic citizens beat in sympathy with it, and I feel sure that a great victory will be achieved if the coal miners themselves will set the example and take the initiative by doing their full duty.

I have been so closely associated with the struggles of the anthracite mine workers, have taken such part in their successes and failures, and have felt so keenly their joys and sorrows that it grieves me more than language can express to say that my views are not in accord with the views expressed by some in favor of a national suspension of coal mining; but much as I cherish the esteem, the confidence and the friendship of my craftsmen who have honored me so signally, I can not and will not forfeit my right to that esteem, confidence and friendship by subordinating my personal conviction of the right and advocating a policy which would, in the end, bring disaster and dishonor upon the organization over whose destiny it is my privilege to preside. I have, during all my life in the labor movement, declared that contracts mutually made should during their life be kept inviolate; and while at times it may appear to the superficial observer or to those immediately concerned that advantage could be gained by setting agreements aside, such advantage, if gained, would, in the very nature of things, be temporary, and would ultimately result in disaster; because a disregard of the sacredness of contracts strikes at the very vitals of organized labor. The effect of such action would be to destroy confidence, to array in open hostility to our cause all forces of society, and to crystallize public sentiment in opposition to our movement.

Sympathetic strikes have many adherents, and the efficacy of such methods appeals strongly to those who, being directly involved in trouble, do not always recognize the effect of their action upon the public mind; but the past history of the labor movement teaches lessons that should not be forgotten today. As far as my knowledge goes, I do not know of one solitary sympathetic strike of any magnitude which has been successful; on the contrary, the most conspicuous among the sympathetic labor struggles have resulted in ignominious and crushing defeat, not only for the branch of industry originally involved, but also for the divisions participating through sympathy. In my judgment the United Mine Workers should not repeat the mistakes which, like milestones, mark the path trod by the toiling masses in their never-ceasing struggle for better and higher civilization. This, like all great, progressive movements, has met with repulses, but, gathering new strength in adversity, moves forward and onward again in its march to ultimate victory. Each defeat should teach lessons of inestimable value in framing the lines upon which present and future battles shall be fought and won.

If this convention acts wisely, if it legislates judiciously, I feel confident that public sentiment will be so concentrated against the arrogant and unreasonable attitude of the anthracite coal operators that they will be forced to yield and to make a settlement with their employes which

will insure living wages and fair conditions of employment, and establish a basis for future adjustment of wage questions that will render strikes, with their attendant sufferings and losses, unnecessary.

It has been the proud boast of the United Mine Workers of America that during the past several years—or since our organization became a power in the labor world—contracts based solely upon the honor and good faith of our union have, under the most trying circumstances, been kept inviolate; and in this supreme crisis a failure to live up to the high standard that has made our union pre-eminent among organizations of labor would prove a substantiation of all the charges and allegations made against us by our enemies, and would confirm, beyond the possibility of refutation, the specious argument of the anthracite coal operators that the United Mine Workers of America is an irresponsible and unsafe body with which to deal.

I am firm in my conviction that the strike in the anthracite fields can and will be won without repudiating our solemn contracts with the bituminous operators, provided the bituminous miners will rise to the occasion and do their full duty by their struggling fellow-workers; and with this in mind I desire to submit for your consideration the following specific recommendations:

First. That the National Secretary-Treasurer be authorized and directed to immediately appropriate fifty thousand dollars from the funds of the national treasury and place it at the disposal of the officers of Districts 1, 7 and 9.

Second. That all District, Sub-District and Local Unions be appealed to to donate from the surplus in their treasuries as large amounts as they can afford.

Third. That an assessment of not less than one dollar per week be levied upon all members of Local Unions, the amount so levied to be collected at the earliest possible moment and forwarded to the National Secretary-Treasurer.

Fourth. That an assessment of twenty-five per cent. be levied upon all National, District and Sub-District officers whose salaries amount to sixty dollars or more per month.

Fifth. That an appeal be made to all American trade-unions and to the general public for financial assistance to carry the strike through to a successful issue.

Sixth. That a committee be selected from this convention to draft an address to the American people, setting forth in proper form the policy of the miners' organization, and appealing to the people to bring all possible pressure to bear upon the officers and stockholders of the anthracite coal-carrying railroads to compel them to treat considerately the appeals of their employes for arbitration.

Firm in my conviction that the adoption of these recommendations and concurrence in this policy will insure success and conserve the best interests and the welfare of our organization, I submit them to you and

bespeak for them your earnest consideration, with the sincere hope that whatever policy you decide upon, the honor and integrity of our organization will be preserved.

INDIANAPOLIS, July 17, 1902.

JOHN MITCHELL.

W. D. Ryan, Illinois: I move that the report and recommendations just read by the National President be adopted. (Seconded.)

President Mitchell announced that no motion would be voted upon until every delegate present who desired to discuss it had been given an opportunity to speak.

Delegate Kerrigan moved that the address and recommendations be printed and copies distributed among the delegates.

The motion was seconded and carried.

After several delegates had spoken, Delegate Patterson offered the following amendment to Mr. Ryan's motion: That the chairman appoint a Committee on Resolutions, and that the recommendations of the President be referred to such committee. (Seconded.)

The amendment was discussed by Delegates Reese, Downey, Reed, Wallace, Dolan, Love, C. P. Gildea, Hayes, Vice-President Lewis, De Silvia, Watchorn and Noylan.

Delegate Wallace offered as a substitute for the whole that the recommendations of the President be taken up seriatim and discussed. (Seconded.)

Delegate Noylan discussed the question, and then moved that the motion before the house be laid on the table.

The motion was declared by the chairman to be out of order at that time, because it had been made at the conclusion of a speech.

On motion of Vice-President Lewis speeches were limited to five minutes, no delegate to speak twice on any question until all others desiring to speak on that question had been heard.

The question before the house was discussed by Delegates Ryan, Healy, Finney, Lloyd, Davis, Fitzpatrick, Dempsey, Campbell, McBride, Lawler, Swisher, Fallon, Fahy, Swisher and Haskins.

A majority of the delegates from the anthracite field expressed a desire to have a separate conference before a vote was taken on the motion before the house.

Delegate Haskins: I move that we adjourn until ten o'clock to-morrow morning, in order to give the anthracite delegates an opportunity to meet and confer, and also to give the Committee on Credentials time to finish their report. (Seconded.)

An amendment to make the time of meeting on Friday 2 o'clock instead of 10 o'clock was lost.

Secretary Wilson: It might facilitate matters if a committee was provided to which the entire subject-matter of the recommendations might be referred. They could take it up for consideration and bring in a report.

Delegate Fahy: I think that committee should not be selected until after the anthracite delegates have had a conference.

Delegate Haskins' motion was then carried, and the convention adjourned to meet at 10 A. M. Friday.

THIRD SESSION.

FRIDAY MORNING, July 18, 1902.

The third session was called to order at 10 A. M., Friday, President Mitchell in the chair.

A supplementary report of the Committee on Credentials was read by Chairman McTaggart.

On motion of Vice-President Lewis the Secretary of each District, or in the absence of the Secretary such member as the delegates from a District might appoint, constituted the Committee on Transportation.

On motion of Delegate John P. Reese a recess of thirty minutes was taken to allow the Secretaries to collect the certificates from the members.

The session was reconvened at 10:45.

Chairman McTaggart, of the Committee on Credentials, asked if the convention wished the entire list re-read, or merely the corrections that had been made.

On motion of Delegate Reese the reading of the entire list was dispensed with.

President Mitchell then stated the motion, the amendment to the motion and the substitute for the whole question before the house, and asked the pleasure of the convention.

On motion of Delegate Reese the substitute for the whole was laid on the table.

On motion of Delegate W. D. Ryan the amendment was laid on the table.

Delegates Reese and Ryan explained that they made the motions that the original question might be discussed.

Delegate Haskins, Ohio, said that the general tenor of the recommendations was satisfactory to his delegation, but thought some amendments should be made to afford entire satisfaction, and offered the following amendment:

That the recommendation of the President as to donating money from the treasury of the association and to be raised by assessments be applied to all the districts in which strikes are in progress that have been indorsed by the Executive Board, as well as to the anthracite districts.

The amendment was seconded.

Delegate Brendel moved, as an amendment to the amendment, that section 3 be stricken from the recommendations, and that ten per cent. of the gross earnings of the members of the organization be substituted for it.

President Mitchell: The amendment to the amendment is out of order

at this time, because it does not amend the amendment. But no matter what is done with President Haskins' amendment, when that is disposed of yours will then be in order.

Delegate T. D. Nichols moved that the amendment offered by President Haskins be laid upon the table, but made the motion at the end of a short discussion of the motion.

President Mitchell: Ordinarily the chair has declined to entertain a motion to table if made at the conclusion of a speech. The chair will not deviate from that ruling now.

Delegate Reap: I move that the amendment offered by President Haskins, of Ohio, be laid upon the table. (Seconded.)

Delegate John P. Reese asked if it was the purport of the amendment that the money raised by the special assessment would be used in all the striking districts.

President Mitchell: The chair understands that it means that money raised by the legislation of this convention will be used in all Districts in which strikes are in progress that have been indorsed by the National Executive Board.

President Mitchell then asked if there were any objections to his making a statement, as there was a motion to table before the house. No objections being offered, President Mitchell explained that his recommendations did not contemplate withdrawing any of the support the national organization was furnishing Districts where strikes that had the indorsement of the National Executive Board were in progress; that a careful calculation had been made of the minimum amount that would be required to carry the anthracite strike to a successful termination; that as much money would be needed in West Virginia each week as had been spent weekly since the strike there was inaugurated, and that provision had already been made to help the strike in the Pittsburg District by advancing five thousand dollars as a loan, with the understanding that the matter would be submitted to the Executive Board at its next meeting to consider whether or not that loan should be turned into a donation.

President Dolan stated that it would take more than the five thousand dollars already advanced them to win the fight.

The motion to table President Haskins' amendment was lost.

Delegate Dempsey stated that the result of the conference of the anthracite delegations was that they indorsed the recommendations of the President, but with the added recommendation that in case the amount of assessment specified was found to be insufficient to meet the demand for aid from the anthracite region, that the National Executive Board be authorized to increase the assessment as much as in their judgment would be necessary; also that the shipping of bituminous coal into the anthracite market be curtailed, in accordance with the resolution adopted by the last National Convention.

Vice-President Lewis: I move that, with the consent of the chair, the convention go into executive session. (Seconded.)

President Mitchell: It is within twenty minutes of the hour for adjournment, and if it meets with the approval of the convention, we will meet in executive session at 1:30.

Vice-President Lewis: That is satisfactory to me.

Delegate Love, Iowa, made a motion that discussion cease.

President Mitchell stated that he could not entertain the motion, as delegates had given notice that they wished to discuss the question before the house in executive session.

Delegate Love withdrew his motion.

President Mitchell read a telegram from Henry White, Secretary of the National Garment Workers' Union, which said that they had donated \$1,000 to the strikers' fund, and would levy an assessment for more funds.

A communication from the Iron Molders' Union announced that they had donated \$1,000, and would raise more.

The Boot and Shoe Workers' Union sent notice of a \$1,000 donation, and the Glass Bottle Blowers' organization sent \$5,000. The Longshoremen's organization sent greetings.

On motion of Vice-President Lewis, the President and Secretary were authorized to send appropriate answers and the thanks of the convention for the liberal donations given by the organizations mentioned.

Adjournment.

FOURTH SESSION.

FRIDAY AFTERNOON, July 18, 1902.

The fourth session was called to order at 1:30 P. M., July 18th, President Mitchell in the chair.

The chairman announced that the convention was in executive session.

Delegate Owens, of District 1, and Delegate Hefti, of District 12, were selected to act as Sergeants-at-Arms.

President Mitchell announced that the discussion would be on the amendment offered by President Haskins, of Ohio.

Delegate Kinkaid: It seems to me that it would not be out of order to have the credentials of the delegates inspected. In this way we would make sure that everybody present was entitled to a seat in the convention. I will make this as a motion. (Seconded.)

On motion of Delegate Fairley, of Alabama, the motion offered by Delegate Kinkaid was laid upon the table.

The amendment was discussed by several delegates.

Delegate Haskins: I would like to inquire what amount of money is being collected by the ten per cent. assessment?

Secretary Wilson: There was collected during the months of March and April approximately \$20,000 for each month. There was collected for the month of May approximately \$18,000, and for the month of June approximately \$16,000.

Delegate Haskins asked if that was sufficient to carry on the strikes in West Virginia and the other Districts outside of the anthracite strike.

President Mitchell: It is not at all sufficient, but we have been drawing upon the considerable surplus in the national treasury. We had a surplus of \$130,000 at the beginning of the year. After we send \$50,000 to the anthracite field we will still have forty or fifty thousand dollars in the treasury, so we are in no immediate danger of having our funds exhausted. We are so expending our money in West Virginia that we are getting the greatest returns. We are buying provisions by the car-load instead of sending money.

Delegate Dolan, Pittsburg, wished to explain the situation in the Pittsburg District at some length. On motion of Delegate Reese, Delegate Dolan's time for speaking was extended, and he was allowed as much time as he wished to make the statement.

After an hour's discussion on the amendment, which was carried on by a number of the delegates, Delegate Love, of Iowa, moved the previous question. The motion was seconded and carried.

The amendment offered by Delegate Haskins was lost.

President Mitchell asked if the motion to close debate included the motion before the house as well as the amendment.

Delegate Love: My motion was intended only to close debate on the amendment.

Delegate W. D. Ryan, Illinois, then offered the following amendment to the President's recommendations:

That the third clause be amended to read "ten per cent. of the earnings of the members of this organization after pit expenses have been deducted," instead of the one dollar per capita as provided in the President's recommendations.

The motion was seconded by a number of delegates.

Vice-President Lewis moved to amend the amendment by providing that the assessment should be ten per cent. of the gross earnings.

Delegate Ryan: I am willing to accept that. I am willing to give twenty-five per cent. of my salary.

Delegate Van Horn, Indiana: Does that also apply to the officers?

President Mitchell: The chair understands that the amendment applies only to that section of the President's recommendations providing for an assessment of the men working at the mines. The officers are amply provided for in another section.

Delegate Van Horn: I understand the amendment has been seconded, including the Vice-President's amendment, which has been accepted by Mr. Ryan. Now I offer an amendment to the amendment, that the officers also be included in this, and that they pay ten per cent. of their earnings.

President Mitchell: The officers under the recommendation would pay the ten per cent. in addition to the twenty-five per cent.

Mr. Van Horn: My amendment means that they pay just ten per cent. of their earnings, as the miners pay ten per cent. of their earnings.

President Mitchell: The amendment is not in order at this time. The amendment offered by Mr. Ryan and Mr. Lewis provides for an assessment of ten per cent. It is an entirely different section which provides for an extra assessment upon officers.

After a long discussion on the amendment, Secretary Wilson offered as a substitute for the whole proposition before the house, that the general policy contained in the President's recommendations be adopted, and that the matter of carrying out the details of the amount and the method of assessment be submitted to a committee appointed for that purpose, the committee to report back to the convention.

The motion was seconded, and after some discussion was carried.

President Mitchell: The chair will appoint the Presidents of all the Districts present, together with the National Vice-President, Secretary and President, as such committee.

A number of requests were made for an address by Mother Jones, who was present.

President Mitchell: I have been requested to ask that you excuse Mother from speaking at this time. We telegraphed to Mother Jones to come here to the convention because she is completely worn out with her work in West Virginia. I do not know whether or not she is aware of our reasons for having her come here, but that is why we did it.

On motion of Delegate T. D. Nichols, Mother Jones was requested to address the convention at the opening of the first session on Saturday.

The session was then adjourned to allow the committee to commence work on the report.

FIFTH SESSION.

SATURDAY MORNING, July 19, 1902.

The fifth session was called to order at 10 A. M., July 19th, by President Mitchell.

The chairman announced that the first order of business was the address by Mother Jones.

Mother Jones spoke for about three-quarters of an hour, and gave a somewhat detailed account of the work being done in West Virginia, and spoke especially of the injunctions that had been served on the organizers and the workers there.

Delegate Reese: I move that this convention, by a rising vote, give Mother Jones a vote of thanks and confidence, and at the same time condemn government by injunction.

The motion was seconded and carried, the vote being unanimous.

The chairman announced, in reply to a question, that the convention would hear the report of the committee in open session.

Delegate Toole: I move that every Local Union in the bituminous fields appoint a committee of employment to notify the District Presidents

in the anthracite fields when they can secure employment for anthracite miners. (Seconded.)

Delegate Reese suggested that the committee's report would probably cover that, as Delegate Fahy had spoken of it at the previous session.

Delegate Haskins: As Secretary Wilson is not here with the report, I move that a recess of thirty minutes be taken to give him time to finish it. (Seconded.)

Delegate W. D. Ryan: I desire to introduce a resolution before you put the motion to adjourn.

The chairman recognized Mr. Ryan, who read the following resolution:

Resolved, That this convention reiterate its declaration and unalterable determination to secure an eight-hour work-day; that we heartily indorse the convention of employers and employes to be held in Minneapolis, Minn., commencing September 22d, under the auspices of the Eight-Hour Day Supreme Grand League of America and the citizens of Minneapolis, whose aims and objects are for the discussion and solution of problems concerning the employer and employe in relation to the bringing about of a general eight-hour work-day.

On motion the resolution was adopted.

Delegate Gildea: I do not think the convention should adjourn until it adopts a resolution concerning the recent terrible accidents in mines in Tennessee, Pennsylvania and Utah. I move that a committee be appointed to draft suitable resolutions to be presented to this convention before its final adjournment.

The motion was seconded and carried.

Under the resolution the President appointed the following committee: Board Member Vasey, Tennessee; Secretary Gilbert, District 2; Delegate Gildea, District 7.

The motion to adjourn for thirty minutes was then carried.

The session was reconvened at 11:30, Mother Jones in the chair.

The chairman announced that a request had been made that Delegate John D. Evans sing for the convention while they were waiting for the committee to report. Delegate Evans complied with the request. Delegate Llewellyn also sang at the request of the delegates.

Secretary Wilson then read the following report:

We, your committee appointed to consider and report upon the details of the general policy recommended by President Mitchell, beg leave to report as follows:

First. That the National Secretary-Treasurer be authorized and directed to immediately appropriate \$50,000 from the funds of the national treasury and place it at the disposal of the officers of Districts Nos. 1, 7 and 9.

Second. That all Districts, Sub-Districts and Local Unions be appealed to to donate from the surplus in their treasuries as large an amount as they can afford.

Third. That an assessment of ten per cent. be levied on the gross earn-

ings of all members of Local Unions in Districts Nos. 6, 8, 12, 13, 19, 23 and 25, and an assessment of \$1 per week upon all members of Local Unions in Districts Nos. 2, 5, 11, 14, 15, 16, 20 and 21. The members of Districts now on strike which may resume work before this assessment has been removed shall be assessed either ten per cent. of their gross earnings or \$1 per week, whichever their District may decide, from the time work is resumed.

Fourth. The assessment shall be paid direct from the Local Unions to the National Secretary-Treasurer, and the Local Unions will be held responsible for the payment of the same.

Fifth. An assessment of twenty-five per cent. will be levied upon the wages, salary or percentage received from the organization of all National, District and Sub-District officers and organizers.

Sixth. The assessment shall begin with the 16th of July, 1902.

Seventh. All contributions made from the National Office to the anthracite region will be divided pro rata to each anthracite District in accordance with the number of miners and mine laborers in each of them, as shown by the most recent coal reports.

Eighth. That each Local in the regions that are at work select a committee, which shall secure work for as many of the men on strike as possible in the locality where the Local is situated, and that the Local inform secretaries of the strike Districts of the number of men needed, the kind of work, wages, and arrangements for transportation. That the same proposition be submitted to all the Locals in the A. F. of L. for their consideration.

Ninth. That the Local Unions be requested to appoint committees to canvass the business men and other citizens of their respective communities for subscriptions.

Tenth. That the following circular be issued to the American people:

We, the representatives of the United Mine Workers of America, in convention assembled, fully appreciating the great responsibility we owe to our constituents, and the vast community of which we are a part, hereby state, for the information of all who desire to know, the line of action we have determined to pursue in the present crisis in our affairs, and the reasons that have impelled us to this decision.

As miners of coal, we view with the exalted pride of a parent the wonderful industrial developments of the past fifteen decades, with all the attending influences upon the civilization of the present which it has produced. We see the mighty engines furnishing the motive power in our mills and factories, reducing to a minimum the labor cost of innumerable articles of commerce; we see the locomotive, almost a thing of life, moving its multitude of cars filled with the products of all portions of our country, making the farmer of the West almost a neighbor to the mill hand of the East. We see the great furnace and rolling-mills bringing forth all forms of constructive iron and steel used in our magnificent modern structures. We see the sturdy steamship carrying the surplus

products of our labor with speed and safety to all the neighboring nations of the earth, returning to our shores laden with the finest wares which other people and other climes have produced. And when we see these things, we feel proud of the fact that our labor, delving in the damp and dangerous caverns of the mines, has produced the coal that has made such wonders possible, and laid the foundation for most of the wealth the world has to-day. But when we look upon the enormous fortunes that our labor has made possible, with the innumerable comforts and luxuries that it brings to the people at large, and then examine the paltry pittance we undergo, the dampness we must endure, the foul air we must breathe, and the peculiar rheumatic and lung troubles superinduced by these conditions which we must bear, we naturally feel that we are being unjustly dealt with in the small amount of this world's goods which we receive in return for so much labor and so many sacrifices.

The great combinations of capital which control the coal industry have become so powerful that no miner can hope through his individual efforts to secure a just share of the wealth which his labor has produced. The history of industrial development in the past has shown that when capital combines, the workers must associate, else they will fall one by one, an unpitied sacrifice in a struggle for existence. For many years the coal miners of America have been imbued with the truth of this position. The extremely low wages paid to anthracite miners; the refusal of the coal companies to have the coal properly weighed, or permit the miners to employ a man at their own expense to see the coal that they have mined weighed, measured or credited; the great number of hours the miner must work each day in the most unsanitary conditions; the cruel and unjust manner in which they have been treated by petty bosses "clothed with a little brief authority;" the arbitrary assumption by the employers that neither the miners nor the public had any rights that are entitled to consideration by them, has forced us to organize, not for the purpose of taking from the operators that which belongs to them, but for the purpose of securing, by business methods, better treatment than we have received in the past, and a fair recompense for our labor. We have sought to accomplish this end by conciliatory methods, by submitting disputed points to arbitration, and by refusing to work upon the terms offered us, commonly spoken of as strikes, when all other means of adjusting the grievances complained of have failed. As proof of our sincerity, we point to the joint convention system of adjusting the wages and conditions of employment from year to year which we have by our persistent efforts introduced and firmly established in the great majority of the bituminous fields of the United States, where the operators and the miners mutually confer and agree upon such terms of employment as may be satisfactory for a given period of time.

For five years we have annually made contracts in this manner with many of the bituminous coal operators, and, notwithstanding the allegations that are persistently made that we are an irresponsible body, we feel

proud of the fact that, while it may have been to our financial interests on many occasions to cast them aside, and we were under legal obligations to no one, we have faithfully lived up to the letter and the spirit of every contract we have made, nor shall we violate them now. One hundred and fifty thousand of our craftsmen in the anthracite region of Pennsylvania have sought to secure better wages and relief from many galling conditions under which they have been compelled to labor in the past. They have tried by every honorable means known to civilized men to adjust the grievances with their employers without resorting to a strike. In this way they have failed, because the employers have assumed to be the only parties interested in all the questions involving the operating of the mines—a position that has not been sustained by the conditions existing since the stoppage of work has taken place. Some of the coal operators have been quoted as saying that the question is not one of wages or other conditions of employment, but that they believe it to be an opportune time to destroy the union. Whether they have made this statement or not, their actions indicate that their purpose is to destroy our organization. We know from experience the dire results of organized capital upon the community at large in the coal regions when not modified by the influence of organized labor. If it is the purpose of the coal operators to destroy our union, then, upon the principle that self-preservation is the first law of nature, we would be fully justified in taking drastic measures to prevent the accomplishment of their designs. We believe that we have within our reach the means by which that purpose can be thwarted. No legal power can compel us to work if we desire to remain idle. There is no more reason why we should be required to sell the labor at a lower price than we are asking for it than a member of a corporation should be compelled to sell his stock when he wants to keep it. We believe that our interest in the community of which we are a part, and our obligations to the operators with whom we have agreements, require that we shall not inaugurate a general suspension of work in the coal trade. They may destroy our union, but they can not make us violate our contracts. The struggle in the anthracite region will be continued until our demands have been granted or a competent board of arbitration has declared that we are wrong. No class of men realizes more than we do the great power of public opinion. Its influence is potent for good or evil in accordance with the manner in which it is used. No right can be secured and maintained without its support, and no wrong can long exist that meets with its concentrated opposition. Realizing this fact, we appeal to the people at large to bring all possible pressure to bear on the officers and stockholders of the anthracite coal-carrying railroads to treat considerately the appeal of their employes for arbitration. The care of one hundred and fifty thousand men and their families in a protracted struggle, such as this is likely to be, will require the expenditure of a large sum of money in the purchase of food. Our own resources are limited. We have levied a large assessment on those who are not on strike. We need more money for

that purpose, and we appeal to every trades-union and trades-unionist, to every citizen whose interests are involved, and to every lover of fair play to assist us in raising one million dollars per month from outside sources as long as the strike may last. We believe that with this amount of money, together with the amount received from our members, we can continue the struggle until justice is secured for the anthracite miners. Such a result would bring permanent peace and stability to the coal trade, and redound to the common welfare of the people.

"He who gives quickly gives twice."

All money should be sent to W. B. Wilson, National Secretary-Treasurer, 1103 Stevenson Building, Indianapolis, Ind.

Delegate Owens: I move that the report of the committee be adopted, and that the report be printed, so that each delegate can take a copy to his Local.

Mr. Owens consented to the separation of the motion, and the first part, that the report be adopted, was seconded.

Delegate Mooney, Missouri: I move to amend by adding after the words "gross earnings" the words "after the cost of powder has been deducted." (Seconded.)

On motion the amendment was laid on the table.

Delegate Van Horn: I move that the words "twenty-five per cent." be stricken from Section 4, and that the words "ten per cent." be substituted therefor. (Seconded.)

Delegate Burke: I move that the amendment be laid upon the table. (Seconded and carried.)

The motion to adopt the report of the committee was carried by a unanimous rising vote.

President W. R. Russell, District 12, asked permission to speak, and after a short address said: "I am authorized by the delegation from Illinois to say to this convention that Secretary W. D. Ryan will immediately place in the hands of the Secretary-Treasurer of the national organization, for the relief of the miners now on strike in the various Districts, the sum of fifty thousand dollars."

President Russell's remarks were received with applause.

President Haskins, of Ohio, said: "I am authorized by the Ohio delegation to state that Secretary Savage is authorized to issue a check to our National Secretary-Treasurer, for the support of the anthracite miners, of ten thousand dollars."

President Reese, Iowa, said: "We were not looking for surprises, and Iowa has not talked the matter over, but we will do so, and in proportion to our numbers we will give as liberally as our mother state of Ohio."

President Hargrove, Indiana: District 11, I am sure, will do as well in proportion to the number of members in that District as the great state of Illinois or as Ohio has done. We will also do everything in our power to collect the assessment to carry on the strike.

Delegate Smith, District 17, made a short address, in which he spoke of

the conditions in West Virginia, and at its conclusion offered the following resolution:

To the United Mine Workers of America, now assembled in Convention:

Be it Resolved, That the entire convention indorse the strike in District 17, and continue their financial support until the strike is won.

Indorsed and adopted by the delegates from District 17, U. M. W. of A.

Delegate Smith said that the West Virginia delegates desired this resolution passed because the operators of that state had gone so far as to say that the convention would do nothing for the strikers in that state.

On motion of Delegate Walker the resolution was adopted.

Delegate Reese: I think there is one part of our committee's report that has been overlooked by the Secretary. The committee last evening adopted a resolution that each Local Union throughout the bituminous Districts select a committee to solicit aid from the business men in the various communities and from the public in general. If this has been overlooked, I move that it be inserted in the report.

The motion was seconded by Delegate Fairley and carried.

The hour for adjournment having arrived, on motion of Delegate Flynn the convention continued in session until its business was completed.

A motion was made and seconded that the Secretary have the minutes of the convention printed and a copy sent to each Local.

It was moved and seconded that the motion be amended to provide that a copy be sent to each delegate present.

The amendment was laid on the table, and the original motion was carried.

Presidents Fahy, Nichols and Duffy each in turn thanked the convention for the provision it had made for their respective Districts to support the strikes now in progress there.

On motion, a vote of thanks was tendered the committee who prepared the report.

The following resolution was read by Delegate Richards, of District 9:

WHEREAS, A certain practice has been established, particularly in the anthracite region, whereby agents, by exaggeration and false statements, induce miners to go into those sections of the bituminous regions where trouble is in existence; and

WHEREAS, It being the policy of our organization to protect all its members, it is hereby

Resolved, That we, the delegates at the National Convention, hereby denounce the practice of misrepresentation, and call upon all members of the organization to denounce the practice of accepting work in sections with which they are not acquainted without first obtaining information in regard to the actual conditions from their Local Union or District officers; and be it further

Resolved, That this resolution be published in the official column of the United Mine Workers' Journal.

(Signed) THOMAS J. RICHARDS,
Delegate L. U. No. 1639, District No. 9.

On motion the resolution was adopted.

Secretary Wilson read a communication from District Council No. 10, Amalgamated Woodworkers' International Union of America.

The communication stated that the firm of Herman Lauter & Co., Indianapolis, Indiana, manufacturers of all kinds of furniture, desks and domestic fixtures, was no longer worthy of the good-will and patronage of members and friends of organized labor. They urged all the members present to refuse to patronize this firm. The communication had the approval of the Central Labor Union of Indianapolis.

President Mitchell made a short address to the delegates. In the course of his remarks he said:

"Resolutions do not win strikes. There are in the treasuries of the Local Unions of this country possibly a million dollars. The resolutions you have passed provide that the Locals, the Sub-Districts and the Districts shall donate as large amounts as they can. I believe that a Local Union that has a surplus in its treasury ought to give the anthracite miners at least one-half of it, and I think the money should be forwarded as soon as you get home. It may appear hard for a Local Union to part with the funds they have saved up during several years; but, gentlemen, the money is needed, and it is needed badly just now.

"I want to thank you for your patience during the convention, and for your concurrence in the recommendations which you evidently believed would best conserve the interests of our beloved organization, and I hope that when we meet again all the clouds which now obscure the horizon of the labor world shall have cleared away, and that the United Mine Workers will be one united organization with no one outside of its fold."

The following report was brought in by the committee appointed to draft resolutions on the recent accidents in mines in Tennessee, Johnstown, Pa., and in Utah:

REPORT OF COMMITTEE ON RECENT EXPLOSIONS.

During the past two months the public and especially the coal-mining fraternity has stood appalled at the frequency and the awful fatality caused by the igniting of explosive gases at Coal Creek, Tenn., Johnstown, Pa., and Park City, Utah. The frequency of these explosions would indicate that the existing mining laws were either inadequate to meet the existing contingencies, or too much laxity has been displayed by those who are paid for the enforcing of existing laws.

Therefore, we, the delegates of the U. M. W. of A., in convention assembled, in the city of Indianapolis, Indiana, this 19th day of July, 1902, sincerely deplore the awful loss of life at the three aforementioned places; and

WHEREAS, So many of our fellow-craftsmen have been called to untimely and premature graves by so many sad mine catastrophies; and

WHEREAS, So many sad catastrophies have occurred through inefficiency of mine foremen and state mine inspectors; and

WHEREAS, The mining laws of our states (that are intended for the protection of our craft, who are daily exposed to the dangerous gases of the mines) are openly, wilfully and maliciously violated, which has clearly been proved by the verdict rendered at the inquest of the late Fraterville Mine disaster in Tennessee against the Coal Creek Coal Company and Tennessee state mine inspector, when, through mere criminal negligence pure and simple, over two hundred of our fellow-craftsmen were ushered to untimely graves; and

WHEREAS, A similar fate has befallen nearly two hundred of our craftsmen in the late disaster of Johnstown, Pa., and again a similar fate befell a number of our craftsmen of Park City, Utah; and

WHEREAS, The cause of said explosions is almost unexceptionally charged to the carelessness of miners (which we claim to be wholly untrue); and

WHEREAS, So many of these corporations are so inhuman at such heart-rending times, when so many mothers and children are left husbandless and fatherless, and through the meager earnings of our craftsmen are left penniless, seek to operate the very mines in which said explosions have occurred, even while the dead bodies are still remaining in the said mine, as is the case in the late Johnstown disaster; therefore, be it

Resolved, That our mining laws of all states be such as to call for competent men who must pass a rigid examination on ventilation and gases before they can hold positions having in charge the lives of many or few of our craftsmen; and be it further

Resolved, That all mines, gaseous or otherwise, in all states be furnished with competent fire bosses, whose duty it shall be to visit all working places and at each working place mark on the coal face roof or shovel the date of his visit and his initials as proof of his being there prior to any one entering the mine, and said fire bosses to report at shaft, drift or slope, as the case may be, before any one be allowed to proceed in the mines. Such law to have a penalty of sufficient nature attached to it for violation of same as to insure his strict adherence to said law. Be it further

Resolved, That this convention now assembled denounce in the most severe terms the action of such corporations who, through their greed for financial gains, have sought to operate their mines before the dead have been taken from their mines and received a decent burial; and be it further

Resolved, That our national officers be empowered by this convention to donate \$———— to the relief of the widows and orphans of the recent disasters at Johnstown, Pa., and Park City, Utah, provided an appeal is made through responsible parties. Faithfully submitted,

JOE VASEY,
CHARLES GILDAY,
RICHARD GILBERT.

On motion, the report was referred to the National Executive Board for investigation and decision.

After the singing of the national hymn, "America," the convention was adjourned.

W. B. WILSON,
National Secretary-Treasurer.
